CA218 Lab 03 (Oct 17th)

Use world schema:

Q1: List the name of each city that begins with the letter 'A" and the country that city is in.

Q2: List each country and the most common language spoken in each country.

Use sakila schema:

Q3: List the id, title and release year of any films which don't have actors listed in the database. (Hint: if you get no results, it's not correct!)

Q4. Print out the name, release year and category for all films which have the word "Moose" in their description
